

For the Skin

You cannot have a clear and smooth skin unless the blood is pure. Blotches, eruptions, rashes, pimples, all show how impure the blood must be. Get all impurities out of your blood before you are seriously ill.

Miss Dorothy Maher, of Fitzroy, Victoria, sends her photograph and this letter: "I had a terrible eruption on my face, which was of a very irritating nature. I tried many blood medicines, but without relief. Friends told me to try Ayer's Sarsaparilla, as it was a most famous blood remedy. I did so, and after taking only two bottles I began to see a great change. By the time the third bottle was used the eruption had entirely disappeared, and without leaving a mark on my face. I am perfectly well now, and I owe it all to this great blood-purifying remedy."

AYER'S Sarsaparilla

There are many imitation Sarsaparillas. Be sure you get "Ayer's." Correct any tendency to constipation with Ayer's Pills. They are sugar-coated, easy to take, mild in action. A family laxative. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A. HOLLISTER DRUG CO., Agents.

TO DEVELOP ELECTRIC POWER ON KAUAI ISLAND

Company With a Capital of \$300,000 Contracts With Jaeger to Commence Ditching and Tunneling—Will Operate McBryde Pumps.

One of the most important financial and commercial deals effected this year is that by which the Kauai Electric Power Company has entered into a contract for the commencement of its work on the Garden Island. Henry Jaeger, the contractor, is reported to have entered into a contract on Thursday to do all the ditching, tunnelling and similar work in connection with the installation of the power plant.

The development of this power and the Electric Company is the work of attorney W. A. Kinney, who has worked it up to its present status. The object primarily was to secure power for use to run the McBryde water pumps, which would be cheaper than fuel.

After the promoters ascertained the amount of power available, the scope of the enterprise was greatly enlarged and they have formed a company with a capital approximating \$300,000, the greater part of which will be held by the McBryde company, to put in an electric power plant on the north side of Kauai in a valley beyond Hanalei. The engineer of the enterprise is W. E. Rowell, formerly Assistant Superintendent of Public Works.

The intention is to put in a big electric power plant at the foot of this valley which contains the largest stream of water on the islands, to transmit the power by wire directly over the top of the mountain, crossing back of Lihue and then along the foothills through Koloa to McBryde. Power will be taken off the wire at Lihue and McBryde. The estimate is that power enough can be developed and furnished to supply all three plantations with whatever power is necessary. The company will also operate an electric railroad if necessary, through all these three districts. It is the purpose of McBryde, with this power, to run its water pumps, operate its steam plows and do whatever work is needed and possible.

Henry Jaeger has been negotiating to do the ditch and tunneling work, etc., and is said to be willing to take his pay in bonds, the estate of S. C. Allen being his financial backer.

This is believed to be the best electric power plant projected on the islands. The water to be used in its development is far away from any lands that can be irrigated and it is practically useless except to develop electric power.

It is estimated that the expense of pumping saved to the plantation will be about two-thirds of the present cost.

HAWAII BUYING UP SUGAR STOCKS AT SAN FRANCISCO

Over \$200,000 Worth of Shares of Hawaii's Sugar Plantations Brought Back to Honolulu. Island People Confident of Future.

That the people of Honolulu and the Hawaiian Islands in general have perfect confidence in the situation of the sugar stock market is evidenced by the heavy stock buying indulged in during the past three months.

In this period it is reported that Hawaiian buyers have purchased about \$200,000 worth of sugar stocks which have heretofore been held on the coast. Particularly among these stocks are quoted the Hawaiian Commercial, Ewa, Oahu and Pioneer, while many others are identified in the purchases in smaller blocks.

The stock brokers state that the last few months have shown a spirit of confidence in the future stocks which had not the shadow of a semblance a year ago. The stock brokers feel happy over the prospect as it shows that although the buying community in Hawaii is comparatively small, in proportion to the size of the population, which in turn is but a drop in the bucket alongside the population of mainland business centers, yet the local community has the quality of keeping all the stock at home it can possibly take care of.

The stock market in San Francisco, as far as it concerns Hawaiian sugar shares, is not especially active. This has been opportune for island buyers who have experienced little trouble in getting local stocks held on the coast. The market here is firm. Ewa sold yesterday at 27 1-2; McBryde was firm at 7 and other stocks were holding their own firmly.

COL. THOMAS FITCH MAY SETTLE IN SAN BERNARDINO

The Salt Lake Herald says: In order to gain back his health, which has been impaired by rheumatic gout, "Tom" Fitch, who recently announced that he had settled down for good in Lewiston, Ida., has moved from that city to San Bernardino, Cal. Mr. Fitch's change was made suddenly and caused him considerable pain, owing to his condition, but his physicians said it was necessary.

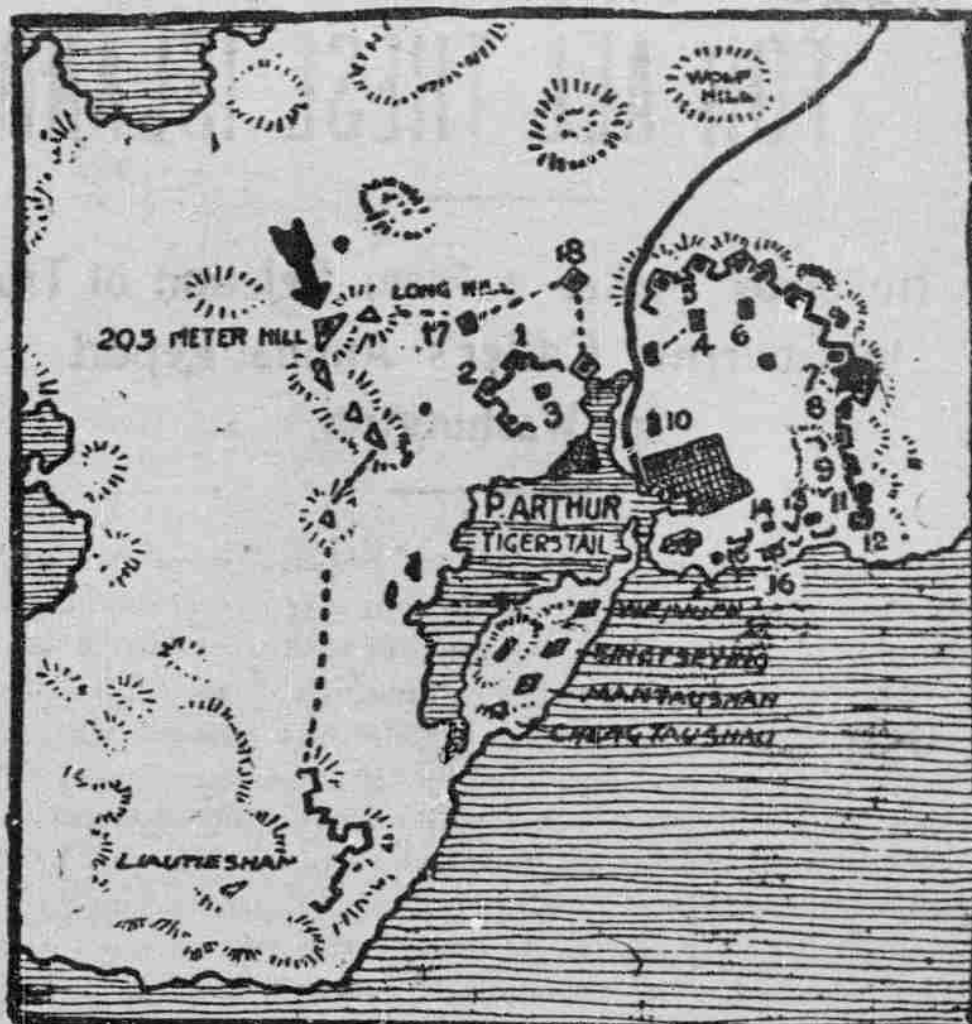

Mr. Fitch's stay in San Bernardino, this time at least, will be short, for he has given out that important business in New York will call him to that place in "a few days." To a San Bernardino reporter he said regarding this business: "When that is concluded, the chances are that I will come back here to stay."

Mr. Fitch, aside from being an eloquent lawyer, has had political interests in the past which took him from one coast to the other. In the course of his moves, Mr. Fitch has resided in Carson City, Nev., in Washington, D. C., in Salt Lake, in Honolulu, in San Francisco and Lewiston, Ida.

Mr. Fitch made a trip to Europe several years ago, and also recently journeyed to Honolulu, where he took up his abode.

It is not thought that his latest illness, gout, will seriously affect his ability. He is quoted as having remarked humorously to a newspaper friend at San Bernardino: "Guess I'll be able to dance a jig in a few days."

THE 203 METER HILL.

The location of 203-Meter hill at Port Arthur, captured by the Japanese, is indicated in the map. It is one of the most important positions in the city's defense, as its summit commands the harbor and its occupation will permit the besiegers to shell the Russian fleet at will. The other forts, of which frequent mention is made in the dispatches, are indicated by numbers, as follows: 1, Antzshan; 2, Etzeshan or Itzshan; 3, Wangtaio (these are frequently mentioned under the name of the Chair Hill group of forts); 4, Shungshu (Pine Tree Hill); 5, Rihlung or Erlung; 6, Keekwan group; 7, Kinkeeshan, north group; 8, Kinkeeshan, south group; 9, Peiloushan; 10, Peiyushan or Cairn Hill; 11, Peiyushan east forts; 12, Makiatien forts; 13, Laoluichi; 14, Shantinwei fort; 15, Hwangschinshan or Golden Hill fort; 16, electric battery and coast battery; 17, Panlungshan or Crouching Dragon Hill; 18, Kuropatkin fort, on Division Hill. The location of the forts here given is according to a map published in the London Times. The dark lines east and north represent the outer works that protect the regular fortifications.

FULL INDEXING MADE OF THE ORGANIC ACT
